Handbook of Library Training Practice and Development Jan 01 2020 Librarians must now work at a different level from that required 20 years ago, but the training available is not always appropriate or accessible to all. The authors of this volume have responded to this significant and continuing change within the profession by offering a much-needed guide to best practice for staff training and development in library and information work. This handbook addresses new aspects of service provision both in the UK and abroad, and provides an up-to-date review of the current developments that are becoming increasingly important to librarians through the influence of the electronic age and the widening of areas of professional involvement. The Handbook of Library Training Practice and Development will be invaluable to those responsible for the development of staff and line managers as well as providing a crucial insight into the information profession for anyone new to this career path or looking to develop their knowledge within it.

Rapid Training Development May 17 2021 Rapid Training Development

Professionals who develop training courses know that during the challenging developmental phase of the five-part Instructional Systems Design Analysis, Design, Development, Implementation, and Evaluation the actual learning materials are created. The development phase is at the very heart of building a successful training program. They also know that creating learning materials can be an extremely time-consuming process. Rapid Training Development offers a much-needed resource that outlines rapid approaches and handy techniques for creating effective learning materials that get results. Written by George M. Piskurich, a leader in organizational learning, this vital book is a hands-on guide for developing training courses that can be delivered in a variety of ways in the classroom, on-the-job-training, asynchronous and synchronous e-learning, structured mentoring or the newest mobile technologies. The book is filled with practical tips, guidelines, and shortcuts that are targeted to each of the various training delivery systems. Rapid Training Development explains what is (and what isn't) course development and provides a wealth of general rapid course development techniques and suggestions for all types of course development. Filled with illustrative examples, the book shows how various rapid development techniques can be applied in real-life training development situations. The author explores the use of various techniques for rapid course development such as self-directed learning and performance tools. The book also includes the most current delivery system approaches such as e-learning and popular mobile technologies podcasting and PDA-based learning. Rapid Training Development is a hands-on guide for doing it faster, doing it easier, and doing it right.
