Financial Reporting, 4th Edition Feb 01 2020 The most authoritative financial reporting text for second and third-year courses, Loftus' Financial Reporting is back in a new fourth edition with updates to the Australian Accounting Standards (up to May 2022), making it the most current book on the market. New to this edition is an entire chapter on ethics, a completely reworked sustainability chapter and an expanded integration of New Zealand standards and examples. The new edition encourages students to not only develop a conceptual understanding of the content, but to also apply it in a variety of practical contexts. Supported by a variety of digital resources like interactive worked problems and questions with immediate feedback, Financial Reporting is a textbook designed for an engaging, interactive learning experience. Singular Integral Operators Dec 13 2020 The present edition differs from the original German one mainly in the following additional material: weighted norm inequalities for maximal functions and singular operators (§ 12, Chap. XI), polysingular integral operators and pseudo-differential operators (§§ 7, 8, Chap. XII), and spline approximation methods for solving singular integral equations (§ 4, Chap. XVII). Furthermore, we added two subsections on polynomial approximation methods for singular integral equations over an interval or with discontinuous coefficients (Nos. 3.6 and 3.7, Chap. XVII). In many places we incorporated new results which, in the vast majority, are from the last five years after publishing the German edition (note that the references

are enlarged by about 150 new titles). S. G. Mikhlin wrote §§ 7, 8, Chap. XII, and the other additions were drawn up by S. Prossdorf. We wish to express our deepest gratitude to Dr. A. Bottcher and Dr. R. Lehmann who together translated the text into English carefully and with remarkable expertise.
