guide to lighting and power cables the  
engineering mindset Apr 11 2021 web jan 02  
2016 cables come in different sizes the size  
refers to the cross sectional area of the cores  
and this will vary depending on the amount of  
current flowing through them a cable with 2  
5mm 2 cores is typically used for power circuits  
and a cable with 1mm 2 cores is typically used  
for lighting circuits single phase power cables

best fast charging cables in 2022 buying guide  
gear hungry Jun 13 2021 web aug 10 2020  
some fast cables can charge twice as fast as  
conventional cables while some can work ten  
times faster the fast charge action can be  
attributed to the specialized wires used in their  
design these enable larger currents to pass  
through them and lead to rapid charging rates  
most of the fast charging cables employ 24  
gauge wires
